চেয়ারম্যানের প্রতিবেদন

প্রিয় শেয়ারহোল্ডারবৃন্দ,

এ এস এফ রহমান
চেয়ারম্যান

কোম্পানীর ৪৫তম বার্ষিক সাধারণ সভায় পরিচালক পর্যদের পক্ষ থেকে আমি আপনাদের সকলকে স্বাগত জানাচ্ছি এবং একই সাথে কোম্পানীর ১লা জুলাই ২০১৭ইং হইতে ৩০শে জুন ২০১৮ইং সময় কালের নিরীক্ষিত হিসাব এবং সাথে নিরীক্ষক ও পরিচালকবৃন্দের প্রতিবেদন উপস্থাপন করছি।

আমাদের প্রত্যাশা সত্ত্বেও গ্যাস এর সরবরাহ ও গ্যাস এর চাপ গত কয়েক বছর ধরে পূর্বের ন্যায় অপরিবর্তনীয়। বিদ্যুৎ এর উন্নতি সত্ত্বেও সরবরাহের বিঘ্নতা রয়েছে এবং বিদ্যুৎ বিঘ্নতার সময় গ্যাস স্বল্পতার কারণে আমাদের জেনারেটর থেকে পর্যাপ্ত বিদ্যুৎ সংগলন করতে সক্ষম হচ্ছি না।

অন্যদিকে, বিশ্ব বাজার পরিস্থিতি খুবই অস্থিতিশীল। বড় শক্তিগুলোর পারস্পরিক বিরোধ এবং ইউরোপীয় ইউনিয়নের পরিবর্তনগুলির ফলে আমাদের যে তাৎক্ষণিক কৌশল নেওয়া দরকার তা কার্যকর করা দুষ্কর হয়ে পড়েছে। যাইহোক, উন্নতির প্রচেষ্টা অব্যাহত রয়েছে।

সামাজিক প্রতিশ্রুতি

বেক্সিমকো লিমিটেড-এ আমাদের কর্মকাণ্ড সমাজের প্রতি দায়িত্ববোধের দৃষ্টিকোণ থেকে আমরা পরিচালনা করছি বলে বিশ্বাস করি। সেজন্য আমাদের সকল কার্যক্রম প্রধানতঃ সমাজের মঙ্গলের দিক লক্ষ্য রেখেই সম্পাদিত হয়ে থাকে। সামাজিক অঙ্গিকারের অংশ হিসাবে কোম্পানী সামাজিক গুরুত্ব সম্পন্ন অনুষ্ঠানাদি উপলক্ষে ক্রোড়পত্র প্রকাশনায় সহযোগিতা ও সমর্থন করে থাকে। বিভিন্ন প্রতিষ্ঠান ও পেশাদারিত্ব প্রতিষ্ঠানের আর্থ-সামাজিক ও সাংস্কৃতিক উন্নয়ন কার্যক্রমে আমরা একান্ত সহযোগিতা ও সমর্থন যুগিয়ে থাকি। কোম্পানী তার উৎপাদন স্থান এবং ইন্ডাস্ট্রিয়াল পার্কের আশেপাশে অবস্থিত বেশ কিছু বিদ্যালয়ে নিয়মিত সহায়তা দিয়ে যাচ্ছে।

কৃতজ্ঞতা স্বীকার

আমি আমাদের সম্মানিত ক্রেতা, বিক্রেতা, ব্যাংকার, সরকারী সংস্থাসমূহ, বিধিবদ্ধ প্রতিষ্ঠান এবং আমাদের ব্যবসা পরিচালনার সাথে যারা জড়িত তাদের সকলকে আন্তরিক ধন্যবাদ জ্ঞাপন করছি। আমি কোম্পানীর শেয়ারহোল্ডারদের প্রতি কৃতজ্ঞ, যাদের সার্বক্ষণিক মূল্যবান সহযোগিতা এবং সমর্থন কোম্পানীকে আজকের এই অবস্থানে এনেছে। আমরা যে সাফল্য অর্জন করেছি তা সকলের সম্মিলিত প্রচেষ্টারই ফল।

আমি আবারো আমাদের সকল শুভাকাঙ্ক্ষীকে আন্তরিক ধন্যবাদ জানাই এবং ভবিষ্যতে তাদের অব্যাহত সমর্থন ও সহযোগিতা কামনা করি।

COMPANY INFORMATION

Dear Shareholders,

I take this opportunity to welcome you on behalf of the Board of Directors to this 45th Annual General Meeting of your Company and to present you the Audited Accounts for the year 2017 – 2018 and Auditors' and Directors' report thereon.

The Gas availability and pressure problem is continuing for last few years unabated despite improvement in electricity supply. There are power cuts, we are not able to generate adequate electricity from our generators as gas is in short supply.

On the other hand the global scenario is also very unstable. The conflict between big powers and changes taking place in the EU is making it very difficult to work out the strategy we should take for the immediate future. However, your company's effort for improvement is continuing unabated.

SOCIAL COMMITMENT

In Beximco, we believe in our responsibilities towards the society we operate in. All our activities are therefore directed to the wellbeing of the society in general. As part of the social commitment, the company sponsors news supplements on important social occasions. We also provide active cooperation and support to different organizations and professional institutions in their sociocultural development programs. The Company helps to run many Schools in and around its production sites and Industrial Park.

ACKNOWLEDGEMENT

I take this opportunity to express my sincere thanks to our customers, bankers, suppliers, government agencies, regulatory bodies and everyone with whom the Company interacted in conducting its business. DIRECTORS' REPORT TO THE SHAREHOLDERS

For the year 2017-18

Dear Shareholders,

The Directors have pleasure in submitting hereunder their report together with the Audited Accounts of the company for the year ended on June 30, 2018 and Auditors' Report thereon:

Analysis of Operating Performance

Business Outlook – a general overview

The vertical manufacturers like Beximco having world class facilities will have the advantage over other producers in the long run. Under the new Zero Tolerance Compliance requirements both building and fire safety will be a central focus. Most marginal players and many buying houses exploiting them will disappear. An industry consolidation will take place.

We still feel that in spite of all the problems, Bangladesh has a long term competitive advantage and extensive needlework experience, which cannot be easily substituted by any other country in the near future. RMG is definitely a sector which is highly beneficial for the Bangladeshi workers.

3.14 Earnings Per Share

This has been calculated in compliance with the requirements of BAS 33: Earnings Per Share by dividing the basic earnings by the weighted average number of ordinary shares outstanding during the year.

Basic Earnings (Numerator)

This represents earnings for the year attributable to ordinary shareholders. As there was no preference dividend, extra ordinary items, the net profit after tax and Non-controlling (Minority) interest for the year has been considered as fully attributable to the ordinary shareholders.

Weighted Average Number of Shares in Issue (Denominator)

Current Year

This represents the number of ordinary shares outstanding at the beginning of the year plus the number of ordinary shares issued during the year multiplied by a time-weighting factor. The time-weighting factor is the number of days the specific shares are outstanding as a proportion of the total number of days in the years. However, the Bonus Shares issued during the year were treated as if they always had been in issue. Hence, in computing the Basic EPS, the total number of bonus shares has been considered.

Earlier Periods

The number of shares outstanding before the bonus shares issue has been adjusted for the proportionate change in the number of shares outstanding as if the bonus issues had occurred at the beginning of the earliest periods reported, and accordingly, in calculating the adjusted EPS of earlier periods, the total number of shares including the subsequent bonus issue in current year has been considered as the Weighted Average Number of Shares Outstanding during the earlier periods.

The basis of computation of number of shares as stated above, is in line with the provisions of BAS 33: Earnings Per Share. The logic behind this basis, as stated in the said BAS is that the bonus shares are issued to the existing shareholders without any

NOTES TO THE FINANCIAL STATEMENTS

As at and for the year ended 30 June 2018

consideration, and therefore, the number of shares outstanding is increased without an increase in resources generating new earnings.

Diluted Earnings Per Share

No diluted EPS is required to be calculated for the year as there was no scope for dilution during the year under review.

3.15 Foreign Currency Translations

The Financial records of the company are maintained and the financial statements are stated in Bangladesh Taka. The assets and liabilities denominated in foreign currencies at the financial position date are translated at the applicable rates of exchanges ruling at that date. Exchange difference is charged off as revenue expenditure in compliance with the provisions of BAS 21: The Effects of Changes in Foreign Exchange Rates. Foreign currency transactions are recorded at the applicable rates of exchange ruling at the transaction date.

4.00 Financial risk management

The company management has overall responsibility for the establishment and oversight of the company's risk management framework. Risk management policies, procedures and systems are reviewed regularly to reflect changes in market conditions and the company's activities. The company has exposure to the following risks from its use of financial instruments.

- Credit risk
- Liquidity risk
- Market risk

4.01 Credit risk

Credit risk is the risk of a financial loss to the company if a customer or counterparty to a financial instrument fails to meet its contractual obligations and arises principally from the company's receivables. Management has a credit policy in place and exposure to credit risk is monitored on an ongoing basis. Risk exposures from other financial assets, i.e. Cash at bank and other external receivables are nominal.

4.02 Liquidity risk

Liquidity risk is the risk that the company will not be able to meet its financial obligations as they fall due. The company's approach to managing liquidity (cash and cash equivalents) is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the company's reputation. Typically, the company ensures that it has sufficient cash and cash equivalents to meet expected operational expenses, including financial obligations through preparation of the cash flow forecast, prepared based on time line of payment of the financial obligation and accordingly arrange for sufficient liquidity/fund to make the expected payment within due date.

In extreme stressed conditions, the company may get support from the related company in the form of short term financing.

4.03 Market risk

Market risk is the risk that any change in market prices such as foreign exchange rates and interest will affect the company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters.

(a) Currency risk

The company is exposed to currency risk on certain revenues and purchases such as revenue from foreign customers and import of raw material, machineries and equipment. Majority of the company's foreign currency transactions are denominated in USD and EURO and relate to procurement of raw materials, machineries and equipment from abroad.

(b) Interest rate risk

Interest rate risk is the risk that arises due to changes in interest rates on borrowing. There was no foreign currency loan which is subject to floating rates of interest. Local loans are, however, not significantly affected by fluctuations in interest rates. The company has not entered into any type of derivative instrument in order to hedge interest rate risk as at the reporting date.

This has been calculated in compliance with the requirements of BAS 33: Earnings Per Share by dividing the basic earnings by the

NOTES TO THE FINANCIAL STATEMENTS

As at and for the year ended 30 June 2018

weighted average number of ordinary shares outstanding during the year.

Basic Earnings (Numerator)

This represents earnings for the year attributable to ordinary shareholders. As there was no preference dividend, minority interest or extra ordinary items, the net profit after tax for the year has been considered as fully attributable to the ordinary shareholders.

Weighted Average Number of Shares in Issue (Denominator)

Current year

This represents the number of ordinary shares outstanding at the beginning of the year plus the number of ordinary shares issued during the period multiplied by a time-weighting factor. The time-weighting factor is the number of days the specific shares are outstanding as a proportion of the total number of days in the year. However, the Bonus Shares issued during the Period were treated as if they always had been in issue. Hence, in computing the Basic EPS, the total number of bonus shares has been considered.

Earlier periods

The number of shares outstanding before the bonus shares issue has been adjusted for the proportionate change in the number of shares outstanding as if the bonus issues had occurred at the beginning of the earliest periods reported, and accordingly, in calculating the adjusted EPS of earlier periods, the total number of shares including the subsequent bonus issue in current year has been considered as the weighted Average Number of Shares Outstanding during the earlier periods.

The basis of computation of number of shares as stated above is in line with the provisions of BAS 33 Earnings Per Share. The logic behind this basis, as stated in the said BAS is, that the bonus shares are issued to the existing shareholders without any consideration, and therefore, the number of shares outstanding is increased without an increase in resources generating new earnings.

Diluted Earnings Per Share

No diluted EPS is required to be calculated for the year as there was no scope for dilution during the year under review.

3.14 Foreign Currency Translations

The Financial records of the company are maintained and the financial statements are stated in Bangladesh Taka. The assets and liabilities denominated in foreign currencies at the financial position date are translated at the applicable rates of exchanges ruling at that date. Foreign currency transactions are recorded at the applicable rates of exchange ruling at the transaction date.

3.15 Statement of Cash Flows

The Statement of Cash Flows has been prepared in accordance with the requirements of BAS 7: Statement of Cash Flows. The cash generated from operating activities has been reported using the Direct Method as prescribed by the Securities and Exchange Rules, 1987 and as encouraged by BAS 7 whereby major classes of gross cash receipts and gross cash payments from operating activities are disclosed.

3.16 Events after the Reporting Period

38.00 Financial Risk Management

The company management has overall responsibility for the establishment and oversight of the company's risk management framework. Risk management policies, procedures and systems are reviewed regularly to reflect changes in market conditions and the company's activities. The company has exposure to the following risks from its use of financial instruments.

- (a) Credit risk
- (b) Liquidity risk
- (c) Market risk

NOTES TO THE FINANCIAL STATEMENTS

As at and for the year ended 30 June 2018

38.01 Credit Risk

Credit risk is the risk of a financial loss to the company if a customer or counterparty to a financial instrument fails to meet its contractual obligations and arises principally from the company's receivables. Management has a credit policy in place and exposure to credit risk is monitored on an ongoing basis. Risk exposures from other financial assets, i.e. Cash at bank and other external receivables are nominal.

38.02 Liquidity Risk

Liquidity risk is the risk that the company will not be able to meet its financial obligations as they fall due. The company's approach to managing liquidity (cash and cash equivalents) is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the company's reputation. Typically, the company ensures that it has sufficient cash and cash equivalents to meet expected operational expenses, including financial obligations through preparation of the cash flow forecast, prepared based on time line of payment of the financial obligation and accordingly arrange for sufficient liquidity/fund to make the expected payment within due date.

In extreme stressed conditions, the company may get support from the related company in the form of short term financing.

38.03 Market Risk

Market risk is the risk that any change in market prices such as foreign exchange rates and interest will affect the company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters.

(a) Currency Risk

The company is exposed to currency risk on certain purchase such as import of raw material, machineries and equipment. Majority of the foreign currency transactions are denominated in USD and relate to procurement of raw materials, machineries and equipment from abroad.

(b) Interest Rate Risk

Interest rate risk is the risk that arises due to changes in interest rates on borrowing. There was no foreign currency loan which is subject to floating rates of interest. Local loans are, however, not significantly affected by fluctuations in interest rates. The company has not entered into any type of derivative instrument in order to hedge interest rate risk as at the reporting date.

39.00 Events after the Reporting Period

- (a) Subsequent to the Statement of Financial Position date, The directors recommended 5% cash (i.e. Tk. 0.50 per share) and 5% Stock dividend (i.e. 5 shares for every 100 shares held) for the year ended 30 June 2018. The dividend proposal is subject to shareholders' approval at the forthcoming annual general meeting.
- (b) Except the above fact, no circumstances have arisen since this statement of Financial Position date which would require adjustments to, disclosure in, the financial statements or notes thereto.

Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. BAS 8: Accounting Policies, Changes in Accounting Estimates and Errors prescribes that the effects of the revision of accounting estimates has to be recognized in the period in which the estimates are revised.

3. Significant Accounting Policies

3.1 Revenue Recognition

In compliance with the requirements of BAS 18: Revenue, revenue from receipts from customers against sales is recognized when products are dispatched to customers, that is, when the significant risk and rewards of ownership have been transferred to the buyer, recovery of the consideration is probable, the associated costs and possible return of goods can be estimated reliably, and there is no continuing management involvement with the goods.

Receipts from customers comprise sales price against export sales and domestic sales.

Export sales are considered as revenue at FOB value. Usually export sales are transacted in FOB basis. Where export sales are carried out other than at FOB price, additional costs are added to FOB price, accordingly those added costs (Ocean Freight, Commission Payable, Cost of Insurance etc.) if any, are net off to arrive at FOB value of the said export sales in order to be uniformed in revenue recognition.

Expenditure incurred after the assets have been put into operation, such as repairs and maintenances is normally charged off as revenue expenditure in the period in which it is incurred. In situation where it can be clearly demonstrated that the expenditure has resulted in an increase in the future economic benefit expected to be obtained from the use of the fixed assets, the expenditure is capitalized as an additional cost of the assets. Financial assets are impaired if objective evidence indicates that a loss event has occurred after the initial recognition of the asset, and the loss event had a negative effect on the estimated future cash flows of that asset that can be estimated reliably. Objective evidence that financial assets are impaired can include default or delinquency by a debtor, indications that a debtor or issuer will enter bankruptcy, etc.

(b) Non-Financial Assets

An asset is impaired when its carrying amount exceeds its recoverable amount. The company assesses at each reporting date whether there is any indication that an asset may be impaired. If any such indication exists, the company estimates the recoverable amount of the asset. The recoverable amount of an asset is the higher of its fair value less costs to sell and its value in use. Carrying amount of the asset is reduced to its recoverable amount by recognizing an impairment loss if, and only if, the recoverable amount of the asset is less than its carrying amount. Impairment loss is recognized immediately in profit or loss, unless the asset is carried at revalued amount. Any impairment loss of a revalued asset shall be treated as a revaluation decrease.

3.6 Inventories

Inventories are carried at the lower of cost and net realizable value as prescribed by BAS 2: Inventories. Cost is determined on weighted average cost basis. The company management has overall responsibility for the establishment and oversight of the company's risk management framework. The company has exposure to the following risks from its use of financial instruments.

Credit risk
Liquidity risk
Market risk

Credit risk

Credit risk is the risk of a financial loss to the company if a customer or counterparty to a financial instrument fails to meet its contractual obligations and arises principally from the company's receivables. Management has a credit policy in place and exposure to credit risk is monitored on an ongoing basis. Risk exposures from other financial assets, i.e. Cash at bank and other external receivables are nominal.

Liquidity risk

Liquidity risk is the risk that the company will not be able to meet its financial obligations as they fall due. The company's approach to managing liquidity (cash and cash equivalents) is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the company's reputation. Typically, the company ensures that it has sufficient cash and cash equivalents to meet expected operational expenses, including financial obligations through preparation of the cash flow forecast, prepared based on time line of payment of the financial obligation and accordingly arrange for sufficient liquidity/fund to make the expected payment within due date.

In extreme stressed conditions, the company may get support from the related company in the form of short term financing.

Market Risk

Market risk is the risk that any change in market prices such as foreign exchange rates and interest will affect the company's income or the value of its holdings financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters.

(a) Currency Risk

The company is exposed to currency risk on certain revenues and purchases such as revenue from foreign customers and import of raw material, machineries and equipment. Majority of the company's foreign currency transactions are denominated in USD and EURO and relate to procurement of raw materials, machineries and equipment from abroad.
